We need someone just like you!

About the opportunity

Job Title: Analyst- Digital Strategy

Function: Digital

Location: PAN India

>> Overview

KPMG is a global organization of independent professional services firms providing Audit, Tax and Advisory services. We operate in 146 countries and territories and in FY20 had close to 227,000 people working in member firms around the world.

KPMG in India, a professional services firm, is the Indian member firm of KPMG International Cooperative ("KPMG International."), was established in August 1993. As members of a cohesive business unit they respond to a client service environment by leveraging the resources of a global network of firms, providing detailed knowledge of local laws, regulations, markets and competition.

KPMG's Advisory Services Practice focuses on fundamental business issues — improving business performance, managing risk, increasing revenues, controlling costs and driving innovation — that organizations, across various industries, should address in order to help them flourish. We help companies work across their lifecycle to realize their ambition, and leverage leading insights from KPMG practitioners globally.

KPMG India's Digital Consulting practice specializes in advising clients on their Digital and Technology agenda, from strategy development to benefits realization. The Digital Strategy and Transformation practice is a rapidly growing team of professionals that help clients design Digital/ Tech strategic initiatives, and work with clients throughout the initiative lifecycle to help them realize the benefits for business and technology leaders. Professionals in this team work closely with CxOs to solve problems in their priority Digital initiatives.
